

Castillo's Paint and Auto Body Shop

November 5, 2005

Written by Linda Renteria

The picture above is Castillo's Paint and Auto Body shop.

The name of this building is Castillo's Paint and Auto Body Shop. The year that Castillo's Paint and Auto Body Shop was built is in the 1930's. The address is 561 Tamiami Trail (US Highway 41) Ruskin, Florida.

This structure has lots of plants and it is half blue and half white and has many attractive windows. There is one door in the front of the building, red letters, four garages or bays for the business.

Castillo's was built for an auto body shop to fix your beautiful car. Castillo's is white with red letters and it

is along U. S. Highway 41. The building is square and has rectangular windows and doors. Castillo's is surrounded with a well maintained parking lot in the middle of down town Ruskin.

Castillo is located across from a beautiful road median maintained by The Ruskin Woman's Club. Today it is the business location of Castillo's Paint and Auto Body Shop for your car.

Castillo's Paint and Auto Body Shop is important because if you crash your automobile and you need to fix and paint it you can go there. It is also a historic Ruskin building.

Castillo's Paint and Auto Body Shop is very clean especially for an auto repair shop. Castillo's Paint and Auto Body Shop is important in the Ruskin History because it combines a current business with Ruskin history.
