

Ruskin Vegetable Corporation Headquarters

November 5, 2005

Written by Kaelani Rivera

The building in the photo above is The Ruskin Vegetable Corporation. The Dickmans had a high involvement with the company in the past. It is an example of Mediteranean archetecture.

The name of this building is the Ruskin Vegetable Corporation. The year the Ruskin Vegetable Corporation Headqauters was built was in 1941.

The address of the Ruskin Vegtable corporation is 5909 US highway 41 North Apollo Beach, Florida 33572.

The structure of the Ruskin Vegtable Corporation is sold brick or block. It shows Mediteranean style architecture, you can see this in the polygonal shapes and the Spanish influence. The Ruskin Vegetable Corporation was built to pack and ship produce around the state of Florida.

The Ruskin Vegetable

Corporation was built under the leadership of Paul Dickman . The Ruskin Vegetable was made to pack and ship fresh produce.

The Ruskin vegetable corporation has a lot of parking lot for it's business. The corporation headquarters has a lot of empty boxes around the building. The neighborhood of The Ruskin Vegetable corporation is on highway 41 so it has a lot of busniss around it.

The Ruskin Vegetable still being used for vegetable packing and shiping. It is important because they give fresh porduce to the state of Florida and provide jobs and money to the local economy.

The outstanding features that the Ruskin Vegetable Corporation has is that there is alot of parking lot and the mediteranean style architecture.

It is important to save this historical building because the Ruskin Vegetable Corporation sells vegetables to the state of Florida.

If we don't save this historical building we will have to drive a very far to get vegetables. I hope this buliding always stays up and running.
